

# Redundant Pipe Organ

M0146

## W G Vowells c1900

Mangotsfield Methodist Church  
Windsor Place Mangotsfield Bristol BS16 9DE UK

NPOR P00064

The organ by W.G.Vowells of Bristol was previously in the Cossham Street Methodist Church, where it was renovated in April 1940.

Following the amalgamation of this church with Northcote Road it was moved to the latter in 1965.

After the closure of Northcote Road in 1970 the organ was relocated in the current premises at Windsor Place where it was rebuilt and fully overhauled by Percy Daniels.

The organ was completely rebuilt, with improvements, in 1992 by Roger Taylor.

It is a very nice small instrument and quite compact.  
Height: 13' 6", Width 8' 6", Depth 7' plus 2' 3" for Bench & pedals.
